

# THE CHRONICLE

VOL. XIII. No 33.

CROSSFIELD, ALBERTA, THURSDAY, SEPTEMBER 16th, 1920.

PRICE \$1.50 A YEAR.

## WM. LAUT

### LOOK for the PROOF !

#### Don't Get Wise When it is Too Late.

Every farmer knows how important it is to be able to get necessary repairs or expert assistance for farm machinery, especially in haying and harvest time.

Every dealer claims he can give it.

WE INVITE INSPECTION of our repair room. Our new stock of Extras for Mowers, Rakes and Binders has arrived and is stowed away in accessible, numbered bins where you can get it quick. We have a larger stock than ever and can give you better service—make us prove it.

Keep this in mind too when you buy  
New Machinery

**William Laut,**  
Groceries, Hardware, Implements, Harness.

## HARVEST EXPENSES

Harvest time brings expenses which must be met with ready money. Should you need an advance to help you over this busy season, interview this Bank. We are prepared to help all responsible farmers. W.A.

## THE CANADIAN BANK OF COMMERCE

to have the bowels move. It is more important to persuade liver, kidneys, skin, and bowels to act in harmony and against self-poisoning. BEECHAM'S PILLS act favorably upon all organs concerned in food-digestion and waste-elimination; they remove causes as well as relieve symptoms.

## BEECHAM'S PILLS

Worth a Guinea a box.

Sold everywhere in Canada. In boxes, 25c., 50c.

### Passing Events

Second only to the perverted view held by a vast majority of people that the chief aim in life is the amassing of money and the enjoyment of those fleeting-pleasure and luxuries which money can procure, is the glibility of the public in snatching at get-rich-quick schemes which unscrupulous but clever promoters and swindlers dangle before the people. The idea that there is something fine and noble in work itself, in worthy ambitions realized, in service well rendered, and that a monetary reward is not the be-all and end-all of existence appears to be fast dying out, and a person's success or failure in life has come to be measured by the standard of his success in amassing money. It is a false standard and an unsatisfactory one. The truly successful men and women are those who can point with conscious pride to some real achievement benefiting themselves and their fellow men.

The desire to get money not honestly earned—which can only be gained by one individual through the loss by some other individual—and to get it quickly and without effort is the bait used or every trap-set for the unwary, and for every one who does obtain wealth in this ill-gotten way there are hundreds of victims who lose. The latest example is afforded by the operations of a man named Ponzi, at Boston, who promised to pay 50 percent profit in ninety days on money invested with him. Thousands of people entrusted him with their money to a total of many millions of dollars. Now he is bankrupt and in prison, while his victims are sadder, but it is doubtful if they are wiser. The only safe road to wealth is along the cultivation and practice of habits of industry, frugality, perseverance and care. And even this road may not lead to the desired haven. But if it does not, there need be no regrets for traveling along with a person will at least have the satisfaction of accomplishing something, and leaving the world better than he found it.

Indications as to the relative degree of activity prevailing in business circles in Eastern and Western Canada are shown by various statistical tables for the month of July last, and these reveal the fact that, while development in the East is only about holding its own with last year, in the West very marked strides forward are being made. Building permits issued in July in 26 Eastern cities totalled \$7,242,536 as compared with \$6,919,444 in July, 1919, an increase of

only \$271,495, whereas in fourteen Western cities permits issued amounted to \$5,098,650 as compared with \$1,726,595 a year ago, or an increase of \$3,372,055.

Several large Eastern manufacturing concerns have shut down portions of their plants temporarily, or have reduced their staffs, thus throwing a considerable number of men out of employment, one firm alone, which has run three shifts of workers for the past nine years, cutting the number to two and releasing 600 men from employment.

On the other hand, the annual influx of harvest hands into the West has brought thousands of young men here, and the banks are anticipating the need of generous assistance from the federal government in the task of financing the marketing and transportation of the 1920 grain crop which promises to be the best for some years past.

In this column some weeks ago the advice was tendered to all who could possibly do so to buy their winter's supply of coal and get it in storage during the summer months before the grain crop began pouring into the elevators for transportation to the lake ports. Those who followed this advice will unquestionably be glad of it, not only because they are assured of an adequate fuel supply in the face of a probable shortage, but because of the money they will have saved thereby as it now seems almost a certainty that there will be a decided increase in freight rates and a consequent substantial jump in the price of coal. In these modern and more commercial days the parable of the wise and foolish virgins still holds good. We call it "Preparedness" or taking time by the forelock, that is all.

### Guilty of Assassination

A man, razor in hand, was caught by his wife assassinating not an enemy, but a corn—what he needed was Putnam's Corn Extractor, it's safe, painless and cures. Try "Putnam's" cures so fast, 25c. at all dealers.

### New Canadian Warships

Cable advices received at Ottawa by the Naval Department state that the cruiser Aurora, and the destroyers Patriot and Patrician, will be in commission October 1, and will in all probability proceed to Canada in the week following. These three vessels, together with two submarines now in Canadian waters, comprise Canada's new fleet.

There are 400,000 cages in France—one for each eighty inhabitants.

There are many brands of tea and coffee—you take your chances on quality—and you pay the price.

But there is only one brand of

## INSTANT POSTUM

—invariably high in quality and invariably moderate in price. A Fair Trial Tells.

Canadian Postum Cereal Co. Ltd., Windsor, Ont.

## Perfects Aeroplane To Explore Africa

Easily Attains Speed of A Hundred Miles an Hour

A new type of hydro-aeroplane, operated by three helices, has been completed and will be marketed soon by Jean Latham, son of Hubert Latham, who two years before the war met his death while hunting in the Congo.

Scientists here prophesy that Mr. Latham's invention will greatly facilitate exploration work in the interior of France's colonies, as it combines three great factors—speed, carrying power and comparative lightness of equipment, and furthermore is able to use the smallest streams in case of accident.

The cabin contains room for four passengers, as well as compartments for reserve supplies of petrol, food, wireless apparatus and machine guns, all of which are in a birch bark canoe body. All the machinery for the operation of the craft is above the heads of the passengers.

In trial tests the hydroplane, carrying three tons, mounted half a mile in four minutes, a mile in eight minutes and three miles in thirty-four minutes. The speed test showed a maximum of a hundred miles an hour, which was easily attained.

### High Prices at Cattle Fair

The Brandon Cattle Fair had its usual success and bidding was keen and prices high. The highest price, Aberdeen Angus, "Blackbird of Glen-carnock," brought \$3,000, and won the Female Grand Championship. The animal was retained to Canada by a Bowden, Alta., ranger. In all 65 Aberdeen Angus and 83 Shorthorns were sold.

## KEEP CHILDREN WELL DURING HOT WEATHER

Every mother knows how fatal the hot summer months are to small children. Cholera infantum, diarrhoea, dysentery, colic and stomach troubles are rife at this time and often a precious little life is lost after only a few hours illness. The mother who keeps Baby's Own Tablets in the house feels safe. The occasional use of the Tablets prevents stomach and bowel trouble, or if the trouble comes suddenly—as it generally does—the Tablets will bring baby safely through. They are sold by medicine dealers or by mail at 25 cents a box from the Dr. Williams' Medicine Co., Brockville, Ont.

### Movies of Hudson Bay Country

The great naval seaplane of the Canadian Aero. Film Company has been on an 800 mile trip to Hudson Bay, where pictures will be taken for the provincial government and a survey made for the Dominion Government. The plane is bound for Belcher Island on the west coast of Labrador in the Bay, and stops are being made at North Bay, Cochrane and Moose Factory.

### Externally or Internally, it is Good.

When applied externally by brisk rubbing, Dr. Thomas' Electric Oil opens the pores and penetrates the tissue as few liniments do, touching the seat of the trouble and immediately affording relief. Administered internally, it will still the irritation in the throat which induces coughing and will cure affections of the bronchial tubes and respiratory organs. Try it and be convinced.

### Keep Thin in Middle Age

Corpulence May be Reduced by Abstaining from Fat Meats

Adding to the bulk of the body in middle age is risky. This does not mean that the diet should be Spartan. It must be simple and moderate. Tasty dishes tempt stout people to eat too freely. Corpulence may be reduced by abstaining from fat meats, sugar, soups and pastry. Bread and potatoes should be eaten rather sparingly. Fresh fruit and green vegetables may be taken in moderation. No sedentary middle-aged person can eat hearty meals habitually without impairing health and curtailing the span of years. The diet must be plain and digestible, and the quantity eaten limited strictly to the repair of tissue expended in work.

Minard's Liniment For Sale Everywhere.

W. N. U. 1331.

## AVOID ALUM IN FOOD

Baking Powder is one of the most important food ingredients. Alum or other injurious acids are frequently used by some concerns to lower the cost of production.

## MAGIC BAKING POWDER

Contains No Alum

It is a pure phosphate baking powder and is guaranteed to be the best, purest and most healthful baking powder possible to produce.

W. Matthew Williams, in "Chemistry of Cooking," says: "Phosphates are the bone-making material of food and have something to do with building up of brain and nervous matter."

Made in Canada

### A Shocking Tragedy

Three Hundred Patients on Hospital Ship are Drowned

Particulars have reached Stockholm of a terrible catastrophe which occurred on the Neva recently, when a hospital ship sank with 1,200 spotted typhus patients on board. It was an old German vessel. The patients were locked up in their cabins. Before the ship sank it was plundered by the Bolsheviks, who unconcernedly left the patients to their fate. About 300 are believed to have been drowned. Nothing is mentioned of the matter in the Bolshevik papers except that 200 of the crew perished.

Minard's Liniment For Dandruff.

### Saves Three Lives

George Bastien is to be recommended for the Humane society medal, for having saved the life of two brothers at Nobel, Ont. It is also stated he saved another life at Sault Ste. Marie some weeks ago.

Bufulmco, an Italian painter, drew caricatures in the fourteenth century, putting labels with sentences to the mouths of his figures.

### Vanderbilt Buys an Island

Cornelius Vanderbilt, Jr., states that he has purchased for his wife an island in Sprout Lake, near Alberni, Vancouver Island. He intends to construct a hunting lodge, at which he and his wife will spend vacations.

No surgical operation is necessary in removing corns if Holloway's Corn Cure is used.

When a woman can't get a servant to do her work there is no help for it.

The Imperial canal of China has a length of more than 1,000 miles.

### Used for 70 Years

There is no Grandmother's youthful appearance has remained unaltered as become but a memory. The soft, refined, pearly white appearance it renders leaves the joy of Beauty with you for many years.

GOUDARD'S Oriental Cream

Small Text: FERTILIZERS & SON, MONTREAL

## The Roast Beef of England

KEEN'S D. S. F. MUSTARD is largely associated with the fame of England's roast beef, having been used with it for over a century.

### Keen's D. S. F. Mustard

eaten with roast beef and other meats, fish, game, poultry, cheese, etc., causes better digestion, and assures full nutrition.

It has received the highest awards of exhibitions all over the world.

## Serious Fire at Crossfield

A fire occurred on the farm of Mr. J. B. Gussolly, situated some 8 miles east of Crossfield, on Wednesday evening between 9.30 and 10 p.m. It is believed that the fire originated from the forge in the blacksmith shop which was burned down along with the garage, granary and a quantity of grain, 2 implement sheds, 6 sets of harness, one end of the separator, and about \$300 worth of tools. The total damage is estimated at \$2,000. Mr. and Mrs. Gussolly wish to thank all who assisted in putting out the fire, helped to move the heavy implements and by united effort prevented the fire from spreading any further. It is a regrettable fact that none of the above damage was covered by insurance.

DON'T FORGET to register your Vote for the coming Election re PROHIBITION, the last day for registering is FRIDAY, OCTOBER 1st, and the Registrar is Mr. A. W. GORDON.

## The Liquor Traffic in Alberta

The idea that prohibition prevails in Alberta is a fallacy. As a matter of fact the trade is in a thriving condition albeit, under existing restrictions. The Alberta Government has a monopoly of the traffic, and finds it a gratifying success as a money maker, the profits exceeding one million dollars a year. The consumer is presumed to be on the sick list and under need of medical attention. Whisky, or its equivalent under another name, is the only drug that will meet his need, and he can get all he wants, by degree, at seven dollars per quart, which is the legal limit at any one time. The sale price is five dollars and plus the two dollars which the accommodating doctor pockets as his fee for the "prescription." The large number of prescriptions filled by the druggists makes a snug item in their business.

How the members of the medical profession can lend themselves to the degrading business of catering to bootleggers and booze artists is amazing, and can only be accounted for by the wonderful compelling power of easy money.

## Method in His Madness

An actor-manager was being shown around a lunatic asylum. Seated under a tree in the garden was a man who was counting his fingers again and again, muttering: "Ewey, money, miney, mo." "Who's this?" asked the actor. "A strange case, sir," replied the attendant. "We found him in the street. He's harmless, but hopelessly insane." The actor looked at the lunatic closely, while the attendant moved away. "Bless my soul!" he exclaimed presently. "He resembles a former member of my company." "Tell me," said he addressing the lunatic, "aren't you Baw! the actor?" "Cheese it!" whispered the lunatic. "If they don't find me out, I can stay here all the summer term free."

IN THE ESTATE OF Henry Dennis Sanders, late of the Township of York in the County of York, Province of Ontario, Farmer, Deceased.

NOTICE is hereby given that all persons having claims on the estate of the said Henry Dennis Sanders, who died on the 10th of September, 1919, are required to file with the undersigned solicitors for the executors of his estate by 31st October, 1920, a full statement duly verified of their claims and of any securities held by them, and that after such date the executors will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims to which notice has been filed or brought to their knowledge.

## Love of The Wild

— BY —  
ARCHIE P. McKISHNIE

Printed by Special Arrangements with Thos. Allen, Toronto, Ont.

(Continued.)

"And nobody can spoil his work," said Gloss gently, "dear old Bill." "Run along children," laughed Peeler. "I've got my pockets full of things that Paisley sent to town for, silk thread, silk cloth—three dollars a yard; look here." He tapped one of his large, bulging pockets. "Bill's gone into the dress-makin' business, it seems."

Gloss clasped her brown hand and her eyes danced.

"Oh," she begged, "won't you let me come too? I want to see all those things. I surely do."

"Tut-tut," scolded Peeler, screwing up his face, "that wouldn't do at all. I'm tellin' too much. 'I'm a poor hand at keepin' secrets.'"

He plunged among the trees, his face frowning and his eyes laughing, and when he had put one of the wide ridges between himself and Gloss he clapped his hands and laughed like a boy.

"She don't know that Bill is gettin' all this costly finery for her. Bless her," he murmured, wiping his eyes. "She don't suspect a thing—not a thing. God bless her dear heart. Ah, but all the silver-lace hides in all this big woods couldn't make a coat good enough for our girl, let alone six as Bill has. But it's Bill's little wish," he added; "it's just Bill's little wish. And Bill's one of God's big men."

Bill scarcely looked his part on this particular evening. Peeler found him sitting just outside his home, his sleeves rolled up to his elbows, and his sinewy arms shining with bear-oil. Across his seamed face were a number of greasy smears, left there by brushing away a troublesome mosquito. Between his teeth he gripped a short clay pipe. At his feet lay a pile of traps, tangled together and red with rust.

"Got back, eh?" he grinned, as Peeler approached. "Get them things, Jim?"

"Sure Bill," and Peeler commenced emptying his pockets.

"Jim," said Paisley, "I guess I'd best have your good wife help me out on this coat. I thought maybe she'd do the linen. Suppose she would?"

"Do I suppose? Well, I do better?" answered Peeler. "I know she will."

"Then don't empty out 'till you get home. I'll drop over tomorrow night. I've got to get these traps in shape if I'm going to do any trappin' this season. Who'd you see over at Bridgdown, Jim?"

"Just a few that Decatur wants over to his loggin'," answered Peeler, seating himself on a bench, "and that man Smythe who keeps the store."

"What do you think of that feller?"

Paisley made a dip for the pan of bear-oil and started scrubbing another trap.

"Well, I don't just think I'm takin' to him much," replied Peeler. "I don't like the way he has of shifitin' his eyes, and he always seems to be expectin' somebody. He sort of makes me nervous. He tried to find out all about every person that lives here, but I wasn't sayin' much. Somehow I wish Tom Gray hadn't sold out his store to this feller, Bill. I don't know why, but I can't take to him."

"Pshaw," grunted Paisley. "I guess we're all too quick at takin' dislikes. I'll own I feel pretty much the same as you. Did he tell you that he was hand in hand with Watson? I have not seen Watson yet, but I'm anxious to meet him."

"He was askin' me about Wildder Ross," said Peeler. "Wanted to know how much property she owned, and all that. Said that he liked her—what he had seen of her."

## Your Eyes

Granulated Eyelids, Eye Inflammation by exposure to Sun, Wind and Wind quickly relieved by Merline Eye Wash. No Irritation, Just Eye Comfort. At Your Druggists or by mail 60c per bottle. For Book of Sun Eye Wash write to Merline Eye Wash Co., Chicago.

## Finest Thing Ever For Chronic Catarrh!

Gets Away From The Medicine Habit, Cures by Novel Method

With the many remedies you have tried you surely know that no liquid medicine can cure your throat or nose. Even a gargle only bathes the entrance of the throat—it can't really get inside, nor can it reach the inflamed bronchial tubes.

With Catrozone it's so different from medicine-taking—you simply breathe its healing vapor, inhale its balsamic fumes, which carry cure and relief to the minutest air cells in the lungs, nose, throat, and bronchial tubes.

In this scientific way the soreness and inflammation is rapidly allayed, relaxed cords are toned up, the entire mucous membrane invigorated. Every trace of catarrh disappears, the disagreeable dropping of mucus in the throat, hawking, spitting and stopped-up nostrils—all these sure signs of catarrh and bronchitis are permanently cured by Catrozone.

Large outfit—lasts two months, costs \$1.00; small size 50 cents, trial size 25 cents, at dealers everywhere.

Paisley dropped his trap and stared through the twilight at his friend.

"Buy gum!" he exclaimed, "what do you think of that?"

"He told me quite a lot of things about Goldie Hallibut," said Peeler, coming over and seating himself close beside Paisley. "Bill, it looks as if Hallibut was bound to scoop us off this place. Smythe says he is a bad man to hinder, once he has made up his mind. He says as both him and Watson is in sympathy with us, and if we'll only let on we're agreeable to leave, that him and Watson'll see he don't get hold of the lease."

Paisley took his pipe from his mouth and laid it on a nearby block.

"Jim," he said, "I don't know this man Smythe very well, but you can bet on this—the man's a liar. Him and Watson are hand in hand with old Hallibut, and it's my impression they're all a pack of rascals. Hallibut threatens to drive us 'till the day if we refuse to be reasonable, as he calls it. I was takin' to one of the fellers who runs that mill of his this afternoon, and he says Hallibut rides over to Bridgetown most every day and lays plans with Smythe and Watson. He said as today Hallibut intended goin' over there. Didn't see him, I suppose?"

Peeler shook his head.

"No, but I met Watson tonight—him and Simpson."

"Then you are," cried Paisley; "there you are. Watson intended to come here today, and you can bet that old reprobate Hallibut has a hand in anything Watson does."

"Then you think them fellers are goin' to try some funny work, do you bill?"

"Jim," answered Paisley, "it's my opinion that there's goin' to be trouble here soon. Then people have laid plans to get our woods, and of course we'll naturally see that they don't. But what I'm afraid of is that that Boy McTavish is goin' to kill somebody sure. You know what he's like. Jim, so I want to ask you to do this; no matter what you see or hear, don't tell Boy. I've just about raised him, you might say, and I know his moods. There's enough trouble over there at Big Mac's now. If we just keep cool everything'll come out right. We'll keep our eyes and ears open, and whatever we see or hear we'll try to meet without sayin' anything about it. What d'ye say, Jim?"

"Sure," answered Peeler. "I think same's you, Bill. It won't do to be too hasty if things came to the worst, which I hope they won't."

"Amen to that," said Paisley fervently. "I trust there'll be no trouble, Jim. Old Injun Noah was here today, and I could see that somethin' was worryin' him. You know he won't talk—only to Gloss; so I could get anything out of him."

"When old old Noah was there, there's somethin' in the wind alright," said Peeler. "Good old Noah!"

"He stayed here with me quite a time," said Paisley, "and he never said a word till he was leavin'." Then he said:

"Bushwhacker no shoot, no kill big man. That mean bad, bad for bushwhacker. Bushwhacker wait—wait and see. And before I could ask him anything he was gone."

"He comes mysterious and he goes

mysterious," said Peeler slowly, "but I reckon he knows even more than we do about old Hallibut and his gang."

He arose and walked toward the path.

"Will you come over to Big Mac's?" Bill, he asked.

"Sure I will."

Paisley followed into the house, washed his hands and face, threw on a jacket, and came forth a bright and smiling six feet of manhood.

"I'm wantin' to see the little sick woman," said Peeler, "and hear Big Mac's fiddle again."

"Boy was here this mornin'," said Bill as the two struck off down the path, "and he says the ma is awful sick. I guess she won't be stayin' long."

When the men reached the McTavish home night had fallen, and a big moon was lifting her face from the forest far eastward.

A damp wind off the bay bore on its wings the scent of bog and marsh, and from high overhead came the wing-sounds of infying wild ducks. From inside came the music of the fiddle playing "Ye Banks and Braes."

(To be continued.)

St. Isidore, P. Q. Aug. 18, 1894.

Minard's Liniment Co., Limited.

Gentlemen—I have frequently used MINARD'S LINIMENT and also prescribe it for my patients always with the most gratifying results, and I consider it the best all-round liniment extant.

Yours truly,

DR. JOS. AUG. SIROIS.

Most men's tempers are fairly decent when they are sound asleep.

There is always a chance that an opportunity may be connected with a galvanic battery.

## Let Cuticura Be Your Beauty Doctor

The Soap to Purify Ointment to Soothe

Let Cuticura be your beauty doctor, one that really does something to purify and beautify your skin and skin. Baths with Cuticura Soap and hot water to cleanse the pores. If signs of redness, roughness or eruptions are present, or dandruff on scalp, touch gently with Cuticura Ointment before bathing or shampooing. For every purpose of the toilet, bath and nursery Cuticura Soap and Ointment are ideal. Absolutely soothing better. Soap 25c. Ointment 25c and 50c. Sold throughout the Dominion. Canadian Agents: Gagne, Limited, 21, Peel St., Montreal. **Don't** Cuticura Soap shaves without soap.

## German Air Trip Round the World

A non-stop dirigible flight around the world will be attempted by the Zeppelin Dirigible Balloon builders in Germany within the next twelve months, according to a statement in New York by Major Charles J. Glidden, an official of the aero club of America.

## Canada's Fisheries

Although the total catch of sea fish in Canada in the month of June was 22,104 cwts. less than in June, 1919, its total value was \$576,518 greater. The total value of the June catch at the points of landing was \$3,586,776 as against \$3,019,250 in the same month last year.

## Cordor Fabric

Extravagant claims and exaggerated statements may sell tires—but they can never make tires give mileage or service.

About Partridge Tires little need be said. Their reputation for durability and dependability under all road conditions, justifies the statement "You can't buy better tires."

## PARTRIDGE TIRES

Game as Their Name

## ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

The name "Bayer" on Aspirin is like 14 Karat on gold. It positively identifies the only genuine Aspirin—Headache, Toothache, Earache, Neuralgia, Lumbago, Rheumatism, Neuritis, Joint Pains, and Pains generally, made in Canada. Tin boxes of 12 tablets cost but

Always buy an unbroken package a few cents. Larger "Bayer" packages. There is only one Aspirin—"Bayer"—You must say "Bayer!"

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocetate of Acetylsalicylic Acid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

The Tobacco with a heart

## WIDE TRIBUNAL FOR MAINTAINING PEACE OF WORLD

### INTERNATIONAL LAW COURT

Viscount Cave Advocates Standing Tribunal to Interpret and—

St. Louis, Mo.—A plea for an international tribunal of justice to secure world order, freedom and peace, was made by Viscount Cave in an address before the convention of the American Bar association.

"It is surely time," the Viscount said, "that all the civilized nations should combine to set up a court of international law. There can be no effective international law until there is some standing tribunal composed of men of outstanding ability who have the confidence of the civilized world and are authorized on the application of any nation aggrieved to interpret and administer the law."

"I hope that I am not too sanguine in believing that the foundation of such a tribunal were well and truly laid, on the first day of July last, I am in no way concerned today with a question which as I gather, is not at this moment in perfect harmony—but I mean the League of Nations. Let there be no mistake, this will come into effect and international law will elucidate it."

Warning against radicalism, Viscount Cave declared revolutionary trouble threatened England, but predicted England would "pull through."

Sir Auckland Geddes, British ambassador to the United States, in an address, pictured the Bolsheviks as enemies of Democracy. He prefaced his address with a denial of charges of Congressman Britten, Illinois, that Great Britain has appropriated approximately \$87,500 to be used in this country for democratic committee purposes.

**Necessity of Conserving Fish**  
Vancouver, B. C.—That he fully appreciated the necessity of conserving the fish of the Pacific Coast by all means possible, though he did not favor handing the administration of the British Columbia fisheries over to the provincial government there, was the assurance which Hon. C. C. Balwin, federal minister of marine and fisheries, gave Hon. William Sloan, minister of mines and commerce for British Columbia, during a conference with the fisheries minister.

## GIRLS! DRAW A MOIST CLOTH THROUGH HAIR

Let "Danderine" save your hair and double its beauty

Oh, girls, such an abundance of thick, heavy, invigorated hair, a perfect mass waving, wavy, curly, glossy, fluffy, bright and so easy to manage.

Just moisten a cloth with a little "Danderine" and carefully draw it through your hair, taking one small strand at a time; this charmingly removes all dirt, excess oil and grease, but your hair is not left brittle, dry, stringy or faded; it becomes charmingly soft with glossy golden gleams and tender lights. The youthful gleams, tints and color are again in your hair.

"Danderine" is a tonic-beautifier. Besides doubling the beauty of the hair at once, it checks dandruff and stops falling hair. Get delightful Danderine for a few cents at any drug or toilet counter and use it as a dressing and invigorator as told on the bottle.

W. N. U. 1231.

## Plan Trans-Continental Flight

Expect to Make Trip From Halifax To Vancouver in Record Time

Ottawa.—A trans-Canada flight, half-way by sea-plane and half-way by airplane, is contemplated by the Canadian air board, the efforts to be next month, according to a statement just issued by Hon. Hugh Guthrie, chairman of the board. It is felt the work of the board has now advanced to such an extent that some practical demonstration should be given of the possibilities of air navigation.

It is proposed to make a start from Halifax and to reach Vancouver, B. C. with stops en route at Sault Ste. Marie, Winnipeg, Calgary and other places. Should wind and weather conditions prove favorable, this trip may be made in between 40 and 50 hours including the time of stops.

### Devonshire Coming West

Ottawa.—The Duke of Devonshire, accompanied by the duchess and other members of the vice-regal family, will leave Ottawa about September 7 for an extended trip to the west. This trip, it is understood, will be similar to the one undertaken last year.

### Rate Decision Expected

Ottawa.—The decision of the board of railway commissioners in the application of Canadian railways for increased rates will probably be forthcoming within a week, Chief Commissioner Carvell has stated.

## NEWS OF THE PROVINCES

### MANITOBA

Winnipeg.—During the first six months of this year 12,869 immigrants from Europe and the United States passed through Winnipeg on their way west, carrying with them more than \$6,000,000 in cash and goods worth about \$2,000,000.

Plum Coulee, Man.—Burglars who moved a small safe half a mile at Hordean, near here, secured only \$20 for their trouble. The safe was taken from the office of the Winkler Lumber Company, and was blown up half a mile away.

### SASKATCHEWAN

Regina.—With the exception of a few districts, there is little shortage of harvest labor in the province, according to the provincial bureau of labor. In the Regina district all the vacancies have been filled and there is no shortage or congestion.

Saskatoon.—Bishop Franz Harder, of the Mennonite church, was sentenced to serve thirty days in jail for refusing to obey the Saskatchewan school laws. He would not pay a fine of \$10, so the court ordered imprisonment.

### ALBERTA

Calgary.—The Southern Alberta oil company, which has a 40-barrel-a-day well 45 miles southwest of Calgary, has declared a dividend of 15 percent. This is the third successive year that the dividend has exceeded ten percent. Its product is used almost exclusively for tractors.

Edmonton.—Harvest leave to all municipal employees, permanent or temporary, in all departments, time off to be without pay, was granted by His Worship Mayor Clarke on his return to Edmonton after an absence of five weeks.

Edmonton.—Postal workers in conference here have decided on strict adherence to the 44-hour week.

### BRITISH COLUMBIA

Victoria.—Names placed on the provincial voters' lists as a result of the recent registration number 202,017, or 45,000 more than the total of 1919.

Victoria, B. C.—So far this season there have been 754 forest fires in British Columbia costing the government more than \$71,458 according to the latest fire report issued by the government. "Conditions are somewhat improved, but are still dangerous," the report says.

## GREAT BRITAIN FACED WITH A SERIOUS CRISIS

### THREATENED COAL STRIKE

Situation in England is Clouded With Political and Social Dangers

Montreal.—In an interview here, Lord Beaverbrook, proprietor of the London Daily Express, who has just arrived here from New York, stated that the threatened coal strike was incomparably the most important question in England today.

"Here we are faced with the most serious crisis in the world's history," he added that no one seriously doubted, but that the strike would take place, and that the situation in England was big with political and social dangers. He stated that Premier Lloyd George had been increased immensely by the Polish victories and that he now dictates the policy of the Allies.

### Want Protection

#### Against Harvesters

Protest Made to Dominion Government of Travelling Conditions of Harvesters

Cochran, Ont.—Strong protests have been made to the Dominion government by the local board of trade regarding the conditions under which harvesters to the west travel, following the recent trouble at Kapuskasing and O'Brien. The board thinks that for "sparsely peopled districts like ours," there should be some special protection provided, and urges "immediate action to compel a complete change in the mode of travel in these harvesters and also to afford protection to the localities effected so as to obviate residents of such localities having to take the law into their own hands and protect their property and lives at the point of the gun."

Copies of the resolution have been sent to Hon. J. B. Carvell, chairman of the Dominion Railway Board, D. B. Hanna, premier of Manitoba, and H. J. D. Reid, minister of railways.

**Purchase by Manitoba Farmers**  
Winnipeg.—One of the most important farmland deals negotiated for some time in Manitoba has been completed. Senator Aime Benard and F. LaFleche acquired the Strathcona farm for \$150,000.

The farm, which consists of 2,500 acres all in crop, is situated at Carleton Place, 15 miles west of Winnipeg.

**500 on Strike Over \$5 Dispute**  
Sydney, N. S.—Because of a dispute over an employees time-sheet, involving a sum of about \$5,000, 500 miners are on strike at Glace Bay, and No. 9 colliery, one of the most important producers of the district, is idle.

## HEART SO BAD WAS NOT SAFE TO LEAVE HER ALONE

Mrs. Eva P. Yatesman, Krugersdorp, Ont., writes:—"I feel that I must write and tell you of the benefit I have received from Milburn's Heart and Nerve Pills. About four years ago I was taken terribly bad with my heart, nerves and fainting spells, and was down in bed for about six months. I doctored with two different doctors and seemed to get better, although the fainting spells would not leave me. I would take such terrible falls, wherever I was, that I was not safe to leave me alone at any time. At last I decided to resort to proprietary medicines and took several different kinds, but none did me any good. One day noticing the advertisement of Milburn's Heart and Nerve Pills I decided to try them; and before I had taken more than two boxes I could see they were helping me. I have taken about ten boxes, and am almost cured of those terrible spells. I sincerely feel that your medicine has proved a blessing to me, and I advise any one troubled with their heart to try them, as I am confident they will bring relief."

Milburn's Heart and Nerve Pills are \$6 a box at all dealers or mailed direct on receipt of price by The J. Milburn Co., Limited, Toronto, Ont.

## Harvesting the Wheat Crop

Binder and Thresher Heard from One End of the West to The Other

Winnipeg.—Assisted by 30,000 harvesters from eastern Canada, the farmers of the prairie provinces are taking off their crops. The sound of the binder and the thresher is heard from one end of this western country to the other, according to a report of the Canadian National railways dealing with conditions along their lines.

Most things send favorable reports. There appears to have been little damage from hail and rust, and only two points report any damage from frost. Generally, speaking, the weather is favorable for harvesting, and for the ripening of late grain crops.

Points in Manitoba report that great progress has been made in cutting up to the end of last week, and threshing was general. In some districts cutting was completed, in others from 15 to 50 percent of this work was done. Erickson reports a large acreage destroyed by fire. Reports coming in show excellent to only fair. Saskatchewan's cutting is in full swing, and threshing has commenced in many places, except in a few points where rain has delayed the harvesting.

### Dealing With

#### Soldiers' Problems

Well Over A Million Cases Dealt With by S. C. R.

Ottawa.—Some interesting details of the work of the soldiers' civil re-establishment department are furnished in a statement just issued. The total number of enquiries and problems dealt with and directly affecting men under the scheme, is 1,218,472, and this, up to the present time.

It is expected that before the bulk of the work is completed, which will be about the end of the present year, this total will run to one million and a half.

It is expected that before the bulk of the work is completed, which will be about the end of the present year, this total will run to one million and a half.

The statistics show that the total number of men who have received medical treatment with pay and allowances is 49,369, the total number of clinical treatments is 422,235 and the total of dental operations is 84,576.

### Unemployment in East

Hamilton, Ont.—There is more unemployment in this city now than for many months. Many men are coming here from outside points seeking for work, but without success. It is said that there is even more female help available than there is employment for in offices and factories, but the supply of domestics is below the demand.

### Intoxicated Driver's Severe Sentence

Hamilton.—Wilfred Perry, of Toronto, arrested on a charge of being drunk while in charge of an automobile, was severely punished by Magistrate Jeffs.

He was fined \$20, and sentenced to 30 days on the first count, and for having a bottle of liquor in his possession he was sent down for three months without the option of a fine.

### Successfully Plug Gas Well

Calgary, Alta.—The gas well of the Canadian Cement company, which has been blowing wild for five or six years, has been finally plugged by officials of the mining lands, and Yukon branch of the Dominion government, after efforts of noted engineers from all over the continent had failed. Over 5,000 cubic feet of mud was pumped into the well.

### Openings For Canadian Cadets

St. John, N. B.—Military headquarters here reports that a limited number of vacancies at the Royal Military Academy, Woolwich, and the Royal Military College, Sandhurst, England, have been allotted to the Canadian government for nominations. Ages are between 17 and 18.

## DESTRUCTION OF SOVIET ARMIES NOW COMPLETE

### POLES TAKE 80,000 PRISONERS

Great Quantity of Guns and Ammunition Fall into Hands of The Poles

Paris.—The destruction of the Bolshevik armies now may be considered complete, according to advices received here. Of the host which swept down on Warsaw, nothing is left but 30,000 fugitives. The Poles have taken 80,000 prisoners thus far, but what is more important they have captured great quantities of guns and materials.

During the past three days there has been heavy fighting in the marshy valleys of the Narw between Ostrolenka and Lomza, where the Reds sought to break through in the direction of Bialystok. The losses have been heavy on both sides. On August 23 the Poles carried all the passages of the river. The Prussian frontier as far as Mysyniec is now occupied by the Poles. All the Red troops west of the line of Ostrolenka-Mysyniec have been captured. The exact number of cannon abandoned is not yet known. Detachments of cavalry and infantry which escaped proceeded northward, along the line of the lakes and marshes between the fortresses of Ossowiec and Grodno.

Profiting by the re-grouping of the Polish army, the Reds again advanced Galicia. General Budennyi made a dash for Lemberg but has been defeated and is in flight. Another detachment crossed the Dnieper and occupied Styria. This detachment sought to destroy the Boryslav oil wells, but was driven off by local workmen. In the region of Cholm, a Bolshevik attack was repelled by troops occupied to the right of the Bug.

## End of the C.E.F.

Will Carefully Preserve All Documents Relating to Ex-Members Of the Army

Ottawa.—The Canadian expeditionary force is no more.

The fourteen N.C.O.'s who were employed to conclude the statistical work of the army have written "30" on the concluding page of a mass of records covering every unit and every man who ever donned a Canadian uniform. Just the number of records kept of every individual man would come as a surprise to even the soldier whose records they are. The militia department has original and duplicates of about twenty-one army forms relating to every one who served. Asked what was going to be done with the thousands of apparently useless books and army forms, a militia department official stated that they would be carefully preserved and locked away.

## MOTHER!

"California Syrup of Figs"  
Child's Best Laxative

Accept "California Syrup of Figs" only—look for the name California on the package, then you are sure your child is having the best and most harmless laxative or physic for the little stomach, liver and bowels. Children love its delicious fruity taste. Full directions for child's dose on each bottle, and in the wrapper. You must say "California."

# The Noble Foundation Said to be the Largest Grain Farm in the World

To stand in the midst of a single field of wheat and see nothing but wheat as far as the eye can see, to see dozens of binders tearing through the greatest single stand of grain ever seen in the west, is the experience of anyone who visits the Cameron ranch of the Noble Foundation, 20 miles northeast of Lethbridge, Alberta, while cutting is in progress on the 9,000 acre wheat field.

Three years ago this immense field of grain was bald virgin prairie, now it is yielding up its first big harvest of wheat at an average of between 25 and 30 bushels to the acre over the whole area. C. S. Noble, who heads what is known as the largest grain farming company in the world, started years ago with half a section of land—320 acres. Today his holdings total 35,000 acres on all his farms, and he has a clear title to every acre of this. Of this area he has 26,689 acres cultivated, 712 are unbroken and 3,680 are used for grazing purposes. This year he has 18,287 acres in crop in all grains. Of this, there is 12,310 in wheat, 2,990 in oats, 3,517 in rye and 79 in flax. He has shown his faith in winter grain as a means of combating soil drifting by planting a great deal of it. He has on one farm 100 acres of volunteer rye which yields eight bushels, another field of 1,000 acres of volunteer rye which yields to yield more, 70 acres of rye that will yield 21 bushels, and 80

acres that will yield 25 bushels. He also has 20 acres of Kosen rye that will yield 30 bushels.

The majority of the crops this year are on what is known as the Cameron ranch, where there are 9,000 acres in wheat, 2,300 acres of rye, 1,500 acres of oats and 70 acres of flax. It is expected that the total acreage will yield 307,350 bushels of wheat, 137,400 bushels of oats, and 70,340 bushels of rye, worth roughly about one million dollars. To harvest this immense crop 60 binders are at work, using 240 horses in addition to the enormous number of helpers required to carry on the necessary work.

To save a fifteen mile haul from ranch to railway, Mr. Noble has established a unique system of conveying his wheat over the valley of the Little Bow River, two miles away, by aerial tramway to the south side, where another three miles will put the grain into the elevator he has purchased.

A huge granary on the slope of the coulees at the Old Man River has been built with a capacity of 50,000 bushels. As the wheat goes into this it comes out at the foot in a chute which carries it into a huge carrier across the river. This carrier has a capacity of one ton. The grain goes into a hopper on the other side from which chutes load it into wagons, the whole operation being done by gravity.

## Alberta's Telephone Service

Rural Business Has Grown by Leaps And Bounds

Within the next three months a thousand new phones, will be added to the city telephone exchange of Calgary, Alberta. During the past six months the exchange has not been able to expand sufficiently to keep up with the increased demands of new subscribers. New equipment, however, is now being installed which, when completed, will allow an additional thousand instruments to be put into use. It however appears, that still further extensions will have to be made shortly since there are now sufficient subscribers on the waiting list to absorb the greater number, if not all the additional telephones the moment they are ready for service.

If the growth in city phones has been small, because of lack of equipment, the growth in rural services has been very large. The new directory for Calgary and district shows 21 new rural toll stations opened up since the last directory was issued, and five additional rural toll stations west of Red Deer taken over by the government.

"The rural business has grown by leaps and bounds," states the officials in charge of the district. "There are more than a score new toll stations shown in the new directory and within a month there will be as many more ready to open. It is difficult to estimate what the actual increase in individual services is in this district, since the work on the various toll lines is not complete. The gangs are working with all speed to complete the new lines and by fall the number of additional rural services will be very great."

The new toll offices opened in the Calgary district, which included from Red Deer south to Carmanagay, are as follows: Patricia, Majorville, Watta, De Bonita, Valleyfield, Hacke, Rauter, Judson, Legend, Skiff, Conrad, Wrentham, Carolside, Cressford, Halliday, Rooke, Rose Lynn, Sheerness, Sunny Nook, and Allerton.

## 12,000,000 Pounds of Butter

The production butter in Alberta in 1929 will, in all probability, reach twelve million pounds, W. W. Prevey, one of the leading creamery men in central Alberta, predicts.

Some people like the towns without doing very much to make the towns like them.

W. N. U. 1331.

## Experiments in Swine Feeding

Self-Feeder Proves More Economical Than Trough Method.

Experimental work with swine has been underway on the Scott Section for three years. The list of experiments includes a comparison of the methods of housing, comparison of feeds and methods of feeding, and determining the value of pasture.

One of the first points noted in examining the data collected, is that swine raising and feeding has proven profitable during this period, notwithstanding the high cost of feed and labor. Out of all the experiments tried out only one has shown a direct loss and this was due to poor ventilation in the building in which the hogs were housed and consequent illness.

The information secured indicates that profitable gains can be secured by use of the self-feeder. In most of the experiments the self-feeder has resulted in more economical gains than the trough method. The conclusion reached is that where the feeder is an expert in his business he can secure equal gains to the self-feeder method, but where the feeder is not well versed in the art of feeding then the self-feeder method permits the hogs to use sufficient quantities of feed to permit vigorous growth.

The matter of pasture for swine is a debatable one. It is possible that very young pigs will make more rapid gains if green feed is cut and fed them than if they have the run of a large pasture. On the other hand, the cost of maintaining brood sows can be substantially decreased by the use of pasture.

A comparison of wintering swine in a large central building with that of having the swine in small portable cabins has shown the small cabin to be the most profitable since it is an exception to have stiffened or rheumatic pigs in the small cabins while in a large central pigsty this frequently occurs. Brood sows that have wintered in portable cabins some distance from the feeding trough have always produced good strong vigorous litters.

A point that has shown up particularly during the last few years is the importance of having grain of good quality for feeding. This is more important than most people realize. That the feed plays an important part was shown by the experiment conducted this past winter when barley and oats were fed in direct comparison with standard screenings and oats, and shorts and oats. The feeding value of the first material was considerably superior to either of the other two. While the shorts and oats produced the least economical gain.

Owing to the high prices usually prevailing in April and May for fat hogs early fall litters wintered in straw sheds or in portable cabins have in the two winters they have been tested out as profitable returns. These pigs were raised under conditions similar to those existing on the average farm, that is no milk was available and the feed consisted of water and grain, with oat sheaves for roughage, and when available roots were given. While the pigs usually did not make very rapid gains during the extremely cold weather they filled out rapidly once the warm spring weather set in, and a couple of weeks of the self-feeder pointed in wonderfully rapid gains.

In conclusion it might be pointed out that swine raising, like all other lines of business, must be consistently and carefully conducted. Much of the loss from this branch of farming in the past has been due to farmers and others going into the business for a comparatively short time and at the first sign of a slump in the market disposing of their entire stock.

MILTON J. TINKLE

Scott-Sask.

## Police

"Oh, Clarice, I'm so worried! You know you told me to put that piece in my wedding cake under my pillow and I'd dream of my future husband!" "Yes, dear; didn't it work?" "That's what worries me. I dreamed of the Seventy-first regiment."

The less work a man does the more he tires other people.

# Heavy Decline in Wheat Growing Shown Since Pre-War Days

The average world's yield of wheat the war years 1914 to 1918 is ascertained to be 98.3 metric tons, a quantity slightly below that of the average five years when the average crop was 100.6 metric million tons. says a recent communication from the International Institute of Agriculture, Rome. It might appear from the respective aggregate that the war had not seriously affected wheat-growing, but in reality matters are quite otherwise. The official data published by the Institute record the profound influence of war with regard to cultivation of wheat in Europe and in other continents. Such attempts as were made by European governments to insure adequate crops proved unsuccessful. In spite of all inducements offered to farmers, and of the many obligations imposed upon them, with the view of keeping up the wheat area, there was a decrease from 130,000,000 acres in 1913 to 112,000,000 in 1918, and from an average of 130,000,000 during 1909-13 to 114,000,000 during 1914-18. In other words, a decline of about 10 percent. The data of yields indicate a decrease even more serious than this.

While the aggregate yield in 1913 was 57.5 metric tons, the figures show sharp declines, to 41.3 metric tons in 1918, while the average of 52,000,000 million during the five pre-war years decreases to 41.6 million.

tion for the five season of conflict, or more than 10,000,000 (20 percent) below the previous crops. The gravity of this situation, a regards Europe, was fully appreciated overseas, and with one accord every region entered the world-wide co-operation in order to save from hunger hundreds of millions of war-worn people, doing its utmost to furnish Europe with its indispensable requirements. Thus we may observe that North America increased its wheat area from the pre-war average of 55,000,000 acres to about 70,000,000. Asia advanced from 45,000,000 to 53,000,000, and Australia from 7,000,000 to 10,000,000, with a corresponding increase in the average yields. Those of North America surpass the pre-war figures by 5,000,000 metric tons; in South America the increase was 500,000 tons, in Asia 2,000,000, in Australia 500,000 tons. Natural causes, such as climate and surroundings, combined to prevent Africa from following these examples, but the yields in that continent remained at pre-war level.

We may summarize by remarking that the decrease in average European yields during the war period is about 10,000,000 tons, but is almost balanced by an average increase of 8,000,000 tons in other countries, and that the net annual deficiency was therefore no more than 2,000,000 tons, a quantity which is in practice insignificant.—Toronto Globe.

## Lignite Development In Saskatchewan

New Company Incorporated as the Western Collieries, Limited

A company capitalized at \$500,000, has been organized for the purpose of developing a part of the Saskatchewan lignite fields in the Estevan district. The new company has been incorporated in the province as the Western Collieries, Ltd., and arrangements already have been made for the commencement of operations.

The company has secured an area of 630 acres at Roche Perce, nine miles southeast of Estevan. The addition to its coal mining operations at that point is it is proposed to establish a large brick pressing plant which will be operated during the summer months and to help to keep the labor of the mines engaged throughout the entire year.

According to government reports there is in this district some of the finest clay in the world suitable for brick making. The slack lignite coal will be utilized in the burning of these bricks which it is estimated will allow of economical production.

## Distribute Season's Fish

Dominion Government Hatcheries Distribute Fry in Manitoba And B. C. Streams

The fisheries branch of the department of marine and fisheries of the Dominion government announces that the Manitoba hatcheries have completed distribution of fry for the season, the total liberated numbering 226,446,850. Of these 25,353,600 were pickerel and the balance whitefish.

With some few exceptions, the distribution of fry has also been completed in British Columbia. In that province, 114,479,487 fry have been liberated, chiefly of the various species of salmon. There were also approximately 740,000 of Kemerley's salmon fry distributed within British Columbia.

## A Quiet Supper Partner

The evening party was over and most of the guests had gone, so the story goes. As one young man took leave of the hostess the lady said: "I'm sorry you found Miss Blight a poor conversationalist!" "Poor conversationalist!" exclaimed the guest. "She's absolutely the limit. Why, the only thing she said to me during the entire evening was 'No,' and I had to propose to get that out of her."

## Experiments With An Eighty-Day Wheat

Well Suited to Districts Where Any Other Varieties Have Not Been Successful

A new pearl white wheat called "Quality" wheat which ripens in 80 days, is being grown very successfully at Douglas, Manitoba by W. J. Whitley who is very enthusiastic over the possibilities, and in this new wheat believes that he has wheat that will set a new standard for Canadian grains. In any event it appears to be very well suited to certain districts where other varieties have not been so successful. The wheat is adaptable to any climate it is claimed, and can be successfully grown in a light dry soil. It most resembles the hard Northern wheat, "Prize Marquis," but has a vitreous white berry of quite different appearance and quality. The heads are of medium size, tapering to a point, beardless, and on ordinary land stand three and a half feet in height.

Mr. Whitley has also been experimenting with a new kind of barley which thrives out exactly like wheat. He has also had considerable success with white flax seed which has yielded twelve percent more oil than ordinary flax, and the seeds are nearly double the size of ordinary flax.

## New Grain Elevator

Hundred Thousand Bushel Twelve Bin Elevator at Moose Jaw

The new fireproof hundred thousand bushel twelve bin elevator which is being constructed at Moose Jaw, Saskatchewan is rapidly nearing completion and the whole structure will be completed by the end of the year. One hundred and twenty-six feet of wall has already been constructed, but this wall will be raised another 80 feet, bringing the total height of the walls to 206 feet.

The huge grain tanks, twelve in number, with a height of 76 feet and a capacity of 100,000 bushels, are now completed and work is progressing on the elevator work house above the tanks.

The storage facilities of the new bins will be available for the handling of this year's crop and the work house above will be completed by the end of the year.

Norwegian and Danish languages are almost similar save in pronunciation.

"I'll tell  
the World"

## Baby's Own Soap

The fragrant creamy lather of "Baby's Own Soap" and its absolute purity have won a great popularity.

It's best for Baby  
and best for You

ALBERT SOAP LIMITED,  
Manufacturers,  
MONTREAL.  
E-7-30

## A Change of Mind

Boredom Not Always Overcome By  
A Change of Scenery

Physicians are in the habit of prescribing a change of scene, a change of diet, or a change of climate. They know that the human system periodically requires it.

It is rather a pity that they do not more frequently advise a change of mind.

People are dashing madly about in all directions—to the Highlands or to the Continent—in a desperate attempt to leave boredom behind somewhere en route.

They seldom succeed.

If they would try a change of mind, eliminating a lot of worn-out prejudices and ideas, they would be astonished at the result. The world would appear a different place—they might even find that their neighbors were quite decent folks, and that romance still lives in ordinary life.

It isn't always the liver that needs toning up.—London Express.

## Trade Agreement With West Indies

The new trade agreement concluded recently between Canada and the British West Indies has now been made public. It provides for an increase in the mutual preference from 20 to 50 percent; it extends the free list, and makes arrangements for an increased steamship service—a weekly service between Canada and the eastern group of the British West Indies, and a fortnightly service with the Western group.

## Pains About the Heart

ANY derangement of the heart's action is alarming. Frequently pains about the heart are caused by the formation of gas arising from indigestion.

Relief from this condition is obtained by the use of Dr. Chase's Kidney-Liver Pills.

Chronic indigestion results from sluggish liver action, constipation of the bowels and inactive kidneys.

Because Dr. Chase's Kidney-Liver Pills arouse these organs to activity they thoroughly cure indigestion and overcome the many annoying symptoms.

**Dr. Chase's**  
Kidney Liver Pills

## Prince Edward Island Is Wealthiest Province

Over Eighty Percent of Population Live on Farms

Which province of the Dominion has the greatest wealth per head of the population? Most Canadians would be surprised to learn that it is the isolated province of Prince Edward Island. Agriculture and fox-breeding have brought about this happy state of things for the "Red Islanders." Well over 80 percent of the population live on the farm. They produce almost all they require to support existence, and there are not large towns to lure the youth away from the pleasures as well as the labors of country life.

Prince Edward Island is not only the wealthiest province, but also the most populous, proportionately to its area.

The ivy is the ancient badge of the Gordon clan.

## Keep the Bowels

Regular and  
You'll be Healthy

For a Quarter You Can Assist  
Them Wonderfully With  
Dr. Hamilton's Pills

You'll never have health if the bowels are inactive. By keeping them right you ensure a clean, wholesome body. Why wait for constipation to clog up and sicken the whole system—use Dr. Hamilton's Pills—they are the finest, mildest laxative known; put strength into the muscles of the stomach and never injure the delicate lining of the bowels. They get you in the habit of performing a certain function at a certain time, and therefore restore normal conditions. Dr. Hamilton's Pills are best because they help nature help herself, keep the stomach strong, digestion good, blood pure, complexion clean, spirits bright and happy. Price 25c.

Men fall down because they miscalculate the width of the ditch.

## Minard's Liniment for Burns, etc.

Every man has his worthless every day but he does not fight them every day will become his worthless day.

Miller's Worm Powders can do no injury to the most delicate child. Any child, infant or in the state of adolescence, who is infested with worms can take this preparation without a quiver of the stomach, and will find in it sure relief and a full protection from these destructive pests, which are responsible for much sickness and great suffering to legions of little ones.

## To Propagate Reindeer

Plan to Increase and Domesticate the Herd in Labrador

Captain A. H. Living, of the Dominion Parks branch, has been appointed to go to Labrador with the object of taking charge of plans to increase and domesticate the reindeer herd there. At the present time there are about 150 head of reindeer in that locality and it is the ultimate intention of the department to supply the missionaries and the people of the Hudson Bay territory with both a food and transportation system. In order to accomplish this, Captain Living will have to spend the next four or five years travelling various parts of the territory, and for a large portion of the time he will be out of touch with the civilized world. The project has been under consideration for several years, but was held up owing to the war. Captain Living, who has had many years' experience in northern Ontario, Quebec, Alberta and British Columbia, left Ottawa for Quebec, taking on supplies there, and leaving immediately for the northern coast. Captain Living served nearly five years with the Canadian forces and saw active service in France.

Praises This Asthma Remedy. A grateful user of Dr. J. D. Kellogg's Asthma Remedy writes: "The only remedy that will give relief, though for thirteen years he had sought other help. Years of needless suffering may be prevented by using this wonderful remedy at the first warning of trouble. Its use is simple, its cost slight and it can be purchased almost anywhere."

W. N. U. 1331.

## CLEANLINESS IS HEALTH

By the use of Gillett's Lye, house cleaning is made a pleasure instead of a drudgery. It softens the water and cleans thoroughly whether the dirt is visible or invisible. Destroys all bacteria and infectious germs, removes obstructions from drain pipes, closets, sinks, etc. Refrigerators are made delightfully fresh and clean by using one teaspoonful of Gillett's Lye dissolved in two gallons of water.

**"GILLETT'S LYE EATS DIRT"**  
Made in Canada.

## Australian Veterans Out of Employment

Found Conditions in England Entirely New to Them

More than ten thousand members of the Australian Imperial Force took their discharge in England in the confident hope of obtaining quickly remunerative employment, and some of them have fallen on their feet. A large number, however, up against labor conditions entirely new to them, are out of work, and are finding it a very different matter from what it is under the sunny skies of Australia, where the temporary workless "lump the blue" (shoulder their haversack) and cheerfully fare forth in search of employment.

To help these men the Australian and New Zealand Services Association has come to the rescue. With offices at 44 Chancery Lane, London, the problem of finding jobs is enthusiastically tackled. The association not only finds jobs but, when necessary, clothes and feeds the applicant first, to insure a good impression being made on the prospective employers.

## How's This?

We offer \$100.00 for any case of catarrh that cannot be cured by HALL'S CATARRH MEDICINE. HALL'S CATARRH MEDICINE is taken internally and acts through the blood on the mucous surface of the system. Sold by druggists in all countries. F. J. CHERRY & CO., Toledo, Ohio. Price 75c. Testimonials free.

## Educational Co-Operation

Let the parents visit the public schools. Let them become directly familiar with the work their children are doing. Let them form their own judgment as to the efficiency or inefficiency of the teachers. Let them go further than merely observing the current work of their children; let them visit the more advanced grades and form intelligent opinions as to the value of advanced work.

If, instead of spirits of camphor, camphorated oil be used in cleaning furniture, it will not only remove the white stains, but restore the polish.

## THIS WOMAN'S MISERY

Ended by Lydia E. Pinkham's Vegetable Compound. Remarkable Recovery of Mrs. Church.

Smiths Falls, Ont.—"I suffered with falling of my organs, pains around my heart and in bowels and down my legs, neuralgia in my face and head, and that terrible sinking feeling. I felt that I could not live and would fix my house in order every night so there would be no trouble if I dropped off in the night. My husband went to the drugstore to get the best remedy he had and he gave him Lydia E. Pinkham's Vegetable Compound. I took six bottles and I feel a lot better. I will always recommend the Vegetable Compound, and you can use it with perfect confidence by women who suffer from nervous prostration, displacements, inflammation, ulceration, irregular, periodic pain, backache, bearing-down feeling, flatulency, indigestion, and all such troubles. Lydia E. Pinkham's Vegetable Compound is the standard remedy for female ills."

If there are any complications about which you need advice write in confidence to Lydia E. Pinkham Medicine Co., Lynn, Mass.

## House Shortage in Winnipeg

It is estimated by the chairman of the City Housing Commission that 2,000 houses must be built each year to take care of the normal increase in the Winnipeg population.

The man who gets a black eye generally deserves it.

## WHY BEAUTY FADES

A Condition Due Entirely to Poor, Watery Blood

The girl who returns home from school or from work thoroughly tired out will be fortunate if she escapes a physical breakdown, because this getting tired so easily is probably the first warning symptom of a thinning blood that must not be disregarded if her health is to be preserved.

When the blood becomes thin and impure the patient becomes pale, haggard and angular. She not only tires out easily but suffers from headaches, palpitation of the heart, dizzy spells and a loss of appetite. This condition will go from bad to worse, if prompt steps are not taken to increase and enrich the blood supply. To make the rich, red blood that brings the glow of health, no other medicine can equal Dr. Williams' Pink Pills. If given a fair trial their use brings rosy cheeks, bright eyes, a good appetite and good spirits. Dr. Williams' Pink Pills have made thousands of pale, languid girls active and strong. On the first sign of poor, thin blood mothers should insist upon their daughters taking a fair course of these pills. They will not only restore health, but will save further doctor bills.

Dr. Williams' Pink Pills can be obtained from any dealer in medicine or by mail from a box or six, at prices by express for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

## The Prince Wins All Hearts

Good Work Accomplished Wherever He Goes

It would be difficult to overestimate the influence which this delightful fraternization of the Prince with the people of the Dominion will have—there can be no doubt that he will make the same conquest of hearts wherever he goes. . . . The affection with which our soldiers learned to regard the Prince in France will be strengthened by the renewal of their intercourse with him. Wherever he has been he has regarded them as the most important person in the company. His keen eye has picked them out, and he has, without ceremony, left the surrounding dignitaries to chat with them—Melbourne Argus.

The grass does not quit because it is stepped on.

Worms cause fretfulness and rob the infant of sleep, the great nourisher. Mother Graves' Worm Expeller will clear the stomach and intestines and restore healthfulness.

The longest ship canal in the world is the St. Lawrence which measures 97 miles. Kiel canal, comes next with 61 miles, and Panama third with 49 miles.

A Simple and Cheap Medicine.—A simple, cheap and effective medicine is something to be desired. There is no medicine so effective a regulator of the digestive system as Farnell's Vegetable Pills. They are simple, they are cheap, they can be got anywhere, and their beneficial action will prompt their recommendation. They are the medicine of the poor man and those who wish to escape "biliousness" will do well in giving them a trial.

Why is the candy shop always on the ground floor and the dentist's office four flights up?

Minard's Liniment: Relieves Neuralgia

Italy's perfume manufacturers consume 1,800 tons of orange blossoms, 900 tons of roses, 150 tons of jasmine and violets and 15 tons of jonquills annually.

## SAY "DIAMOND DYES"

Don't streak or ruin your material in poor dye. Insist on "Diamond Dyes." Easy directions in package.

## "CORN"

Lift Right Off Without Pain

Doesn't hurt a bit! Drop a little "Frezzone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with the finger. Truly!

Your druggist sells a tiny bottle of "Frezzone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

Stereotyping was invented in 1725, plaster casts being used in the original process.

## ECZEMA

It is a skin disease which causes itching, burning, and pain. It is caused by a poison in the blood. It can be cured by using Dr. Chase's Kidney-Liver Pills. They will cleanse the blood and remove the poison. Address: Dr. Chase's Kidney-Liver Pills, 111 West Second Street, Toronto, Ont.

## Local & General

Mr. W. A. Waldo has rented the rooms above the old Municipal Office and will shortly take up residence in the same.

We notice the several threshing outfits, in, and around town are rare in go. We presume threshing will be general by the first of next week.

Have you registered your vote yet for the coming election? Step into Ontkes and Gordon's the first time you are in town.

Anyone contemplating having a sale by auction, be sure and get acquainted with the local Auctioneer Mr. F. W. Pullen.

Mr. Archie Switzer, of Drumheller is a visitor in town renewing acquaintances.

NOTICE: On and after the 30th of October, 1920, the Hall known as the Oddfellows Hall will be closed for public use.

Miss Lena May Felt, of Rumford, Maine, U. S. A. is spending a few days as the guest of Mr. and Mrs. A. A. Hall prior to leaving for the coast en-route for her home.

Mr. H. R. Parker is spending a weeks vacation on the Clements farm.

Miss E. Montgomery, Mr. and Mrs. A. Montgomery, Mr. H. L. and Mr. H. K. Montgomery were visitors to Strathmore on Saturday last for the purpose of attending the wedding of their sister Miss Kathleen Montgomery to Mr. Chas. Roy Venables, both of Strathmore. Rev. H. Montgomery father of the bride, performed the ceremony.

The following books have been added to the Women's Institute Library: Patricia Brent, Spinster; The Red Lady, The Indifference of Juliet, Mary Marie, Desert of Wheat, Wyndham's Pal, Willow the Wisp, Storm Country Polly, The Strong Hours, T. Temboron, His Friend and His Wife.

Mrs. R. Reid and family left on Monday last to join Mr. Reid who recently sold out here and has located at Langley Prairie, B. C.

How about your supply of Letter Heads, Bill Heads, Addressed Envelopes, etc. We are open for all kinds of printing at the Chronicle Office.

A painful accident occurred during the past week on Mr. F. Collicutt's ranch. It appears that one side of a grain bin burst and pinned Mr. Walter Hansen across the lower part of the body, the bin at the time containing a large quantity of rye, it was several minutes before Mr. Hansen was relieved of the enormous pressure on account of the necessary tools not being at hand. Luckily he was laying on his side or his injuries would undoubtedly have been more serious. However Mr. Hansen will lose several days threshing as he will be confined to his bed for a while.

## Prohibition Meeting

Rev. Geo. G. Webber B. A. will address an important Referendum Meeting in Crossfield Union Church on Thursday, September 23rd, at 8.30 p. m. Mr. Webber was at one time President of the Temperance and Moral Reform League. He is now Organizer of the Olds, Didsbury and Cochrane Constituencies for the Prohibition Referendum. Temperance supporters are urged to attend this important meeting.
